NIFDI Sentence Copying Program for Reading Mastery II

The NIFDI Sentence Copying program, developed at the National Institute for Direct Instruction, is a supplemental handwriting program to accompany SRA's Reading Mastery II (Classic or Rainbow editions). The sentence copying sheets correlate with Reading Mastery II's sequence of skill development but do not employ its orthography. Instead, they provide handwriting practice of letter forms more commonly taught in typical elementary classrooms.

Sentence copying sheets may be presented after Reading Mastery II lessons of equal or higher numbers. (Example: sentence copying sheet #74 may be presented after *reading* lesson #74, 85, or 91, but not after lesson #72.)

If you are using the Fast Cycle version of Reading Mastery II, the lesson conversions in the table below will help you determine which sheets to present at various points in the Fast Cycle program.
