National Institute for Direct Instruction

How to Correct Discrimination Errors Vol. 2

Handout Packet
Correction Procedures for Verbal Tasks:  
Part-firming Paradigm

List the all seven steps of the error correction procedure.

Every time an error in an exercise occurs:

1. Complete the first step of the correction procedure for error type:
   a. Content or discrimination error: ______________________________
   b. Production error (model, then lead, chunk, or chain)
   c. Strategy or rule error (prompt rule)

2. ___________________________________________________________

3. ___________________________________________________________

(Repeat steps 1-3 until the whole part is 100% firm—no errors are made)

4. ___________________________________________________________

5. ___________________________________________________________

6. ___________________________________________________________

7. ___________________________________________________________

Part-firming Vocabulary:

Task—Teacher wording that requires one student response or a system of highly related responses. The teacher wording can be stated in the form of a statement or a question.

Part—A logical grouping or combining of similar tasks. The more difficult the tasks for the students, the smaller this grouping of tasks should be. The more steps involved in a task that requires a highly related system of responses, the more that one task should be thought of as one part.

Exercise—Grouping of parts using the same teacher wording. In some of the older Direct Instruction (DI) programs, this is labeled TASK.

Delayed test—A task or question is presented again after two or more minutes have passed.
Correction Procedures for Verbal Tasks:
Part-firming Paradigm
Simple Part-firming — Staying Within the Script

Every time an error in an exercise occurs:
1. Complete the first step of the correction procedure for error type:
   a. Content or discrimination error (model)
   b. Production error (model, then lead, chunk, or chain)
   c. Strategy or rule error (prompt rule)
2. Repeat the task (statement or question).
3. Go back and repeat the part. (If you can’t figure out what the “part” is, go back at least two things: two sounds, two words, two pictures, or two problems.)

(Repeat steps 1-3 until the whole part is 100% firm—no errors are made)
4. Go to the next part. Repeat parts until all parts are firm.
5. Go back to the beginning of the exercise, if it is a short exercise. In lengthy exercises, go back to those tasks or parts where errors occurred.
6. Give individual turns.
7. Provide a delayed test at least two more times (e.g., after the next exercise, at the end of the lesson, in line in the hallway, before lunch).
Types of Errors:

**Content or discrimination error**—Student says wrong answer on fact type question.

**Production error**—Student has difficulty saying the whole response.

**Strategy or rule error**—Student says wrong answer because he/she doesn't apply a rule or strategy.

Instructor Responses:

**Model**—Teacher tells the answer.

**Lead**—Teacher says the answer WITH the students.

**Chunk**—Teacher separates task into smaller units to make it easier for students to say the task.

**Chain**—Teacher connects smaller parts into a whole to make it easier for students to produce the response.

Other Vocabulary:

**Task**—Teacher wording that requires one student response or a system of highly related responses. The teacher wording can be stated in the form of a statement or a question.

**Part**—A logical grouping or combining of similar tasks. The more difficult the tasks for the students, the smaller this grouping of tasks should be. The more steps involved in a task that requires a highly related system of responses, the more that one task should be thought of as one part.

**Exercise**—Grouping of parts using the same teacher wording. In some of the older Direct Instruction (DI) programs, this is labeled TASK.

**Delayed test**—A task or question is presented again after two or more minutes have passed.

1. The session was logical and well organized.  
   Comments ________________________________

2. The content was useful and practical for my situation.  
   Comments ________________________________

3. The content was well presented.  
   Comments ________________________________

4. The handouts supported the video presentation.  
   Comments ________________________________

5. What are the 3 most important things (topics) you learned during this training?  
   __________________________________________
   __________________________________________
   __________________________________________

6. What specific recommendations would you make for improvement?  
   __________________________________________
   __________________________________________
   __________________________________________

7. What additional training would you like to receive?  
   __________________________________________
   __________________________________________
   __________________________________________

8. Any other comments or suggestions?  
   __________________________________________
