NIFDI is Headed to Australia!

The National Institute for Direct Instruction is providing training and support in coordination with another non-profit organization, Good to Great Schools Australia (GGSA). Based Down Under, GGSA's mission is to transform low-performing schools through comprehensive school improvement, including utilizing Direct Instruction for the literacy component of their reform efforts.

NIFDI and GGSA will be training instructors to provide Direct Instruction at 20 sites located throughout the Northern Territory and Western Australia, starting this month. Support for the implementations comes from federal funding focused on improving remote schools serving Australia's indigenous population.

For more information on how NIFDI can help your school ensure success for every student with DI, visit us online to [learn how to get started](#).

New Implementation Managers gathered in Eugene for an extensive training in preparation for the upcoming work in Australia.

Registration Opens Soon for Summer Trainings

Plan on joining us for our upcoming summer conferences featuring high-quality, intensive training on the current editions of Direct Instruction programs:

3rd Annual Southwest DI Conference

June 8-11, 2015

San Antonio, Texas

41st National Direct Instruction Conference and Institutes

July 27-31, 2015

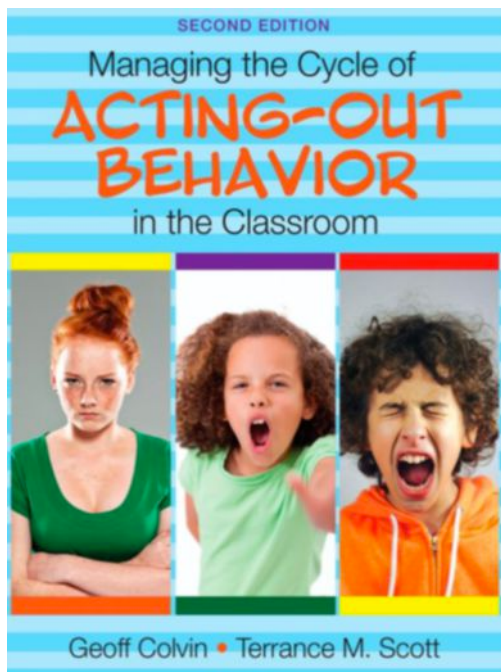

Eugene, Oregon

The San Antonio sessions are focused on the kindergarten through 3rd grade levels of Reading Mastery Signature Edition, DISTAR and Connecting Math Concepts, as well as Corrective Reading. The National Conference in Eugene will include training on all levels of the DI programs, as well as sessions on classroom management, data

collection and analysis and much more. Eugene also features several popular institutes, including the Institute on Becoming an Effective DI Trainer, Essentials of Coaching and the Administrators Institute: Effective Implementation and Supervision of DI.

Registration information will be available on our website February 20, 2015. See you this summer!

New Edition: *Managing the Cycle of Acting-Out Behavior in the Classroom*

In this newly released edition of *Managing the Cycle of Acting-Out Behavior in the Classroom*, authors Geoff Colvin and Terrance M. Scott present a system for understanding acting-out behavior in terms of seven phases and correcting it before it gets in the way of student engagement and learning.

This newly updated edition draws on the latest research to deliver a clear roadmap for educators to assess acting-out behavior and to design effective interventions in a clear, systematic, and achievable manner. The book includes a number of checklists, tools, resources and templates to help educators bring these practices into the classroom.

First grade teacher Amy Owsley at Clear Creek Elementary in Shelbyville, Kentucky says:

"This book is a must-have resource for any classroom teacher in today's school setting. The authors have translated decades of behavioral research into teacher relevant language and provided real-world examples of how the behavioral support concepts and strategies work."
