Corrective Reading: Decoding B2 Independent Work Percentages

Independent daily work is a critical measure of student mastery. A record needs to be maintained of individual and group performance. The attached charts give the percentages for the independent work that students do in the Corrective Reading programs. The charts list the lesson number, the total number of items possible for each lesson and the percentage correct. The charts can be used for grading and to provide an accurate record of student performance.

Students need to be at **85% mastery or above** on their independent work for each lesson. Students who fall below 85% for three consecutive lessons have a problem and a remedy is needed. A remedy is also needed for students who frequently fall below 85%. If one fourth or more of the students in a group fall below 85% on a specific lesson, the entire group should repeat the lesson.

Students need to count errors accurately to calculate the correct percentage. Rules for counting items in Decoding B2 are listed below.

<u>Rule 1</u>: Any tasks that only require students to read words of sentences aloud should not be counted as an item.

Rule 2: Sounds dictation across one row should be counted as one item.

<u>Rule 3</u>: Sounds dictation across two rows should be counted as two items, (one per row).

<u>Rule 4</u>: Parts that require students to circle sounds or sound combinations should be counted as one item per sound/combination. This example would be counted as three items.

Rule 5: A sound or word matching exercise should be counted as one item. Each example would be counted as 1 item.

Rule 6: Any part followed by numbered items that require a written response count as one item per number. This example would be counted as four items.

Rule 7: Any part that requires a written response counts as one item. Each example would be counted as one item.

Remember, keep a daily record of student performance on independent work. Student mastery is 85%. Take a corrective action when 25% or more of the group falls below 85% mastery, when individuals score below 85% for three consecutive lessons or when individuals frequently score below 85%.
