

Reading Mastery Transformations Grade 3 Reading Independent Work Percentages

Daily independent work is a critical measure of student mastery in the Reading Mastery Transformations (RMT) Grade 3 Reading program. A record needs to be maintained of individual and group performance. The attached charts give the item count and percentages for the independent work that students complete in RMT 3 Reading. The charts list the lesson number, the total number of items possible for each lesson and the percentage correct. The charts can be used for grading equivalents and as an accurate record of student performance.

Students need to be at **85% mastery or above** on their independent work for each lesson. Students who fall below 85% for three consecutive lessons have a problem and a remedy is needed. A remedy is also needed for students who frequently fall below 85%. Students need to fix-up all items that are incorrect on each lesson's independent work before the next lesson is taught. If one fourth or more of the students in a group fall below 85% on a specific lesson, the entire group should repeat the lesson.

Students need to count errors accurately to calculate the correct percentage. The basic rule in counting errors is that numbered prompts count as one item. If a numbered prompt has several possible answers the prompt only counts as one item.

In the example below, the item is numbered. There are four written responses. The item only counts as one item.

3. Fill in the blanks to show the four seasons.

winter, spring, summer, fall, winter, spring,
summer, fall.

In the example below, each sentence is a numbered item. In order to count the item correctly, the student's written response must include all the words and match the answer given.

Use the words in the box to write complete sentences you have learned.

folks	disturbed	screeched	cute	audience
delivered	boring	peppy	mobbed	attract

1. The [] speaker [] the [] . *The boring speaker disturbed the audience.*

2. A lot of [] [] the [] singer. *A lot of folks mobbed the cute singer.*

By contrast, in the item below, the missing words in the sentence are numbered. So, completing this sentence correctly would count as two items.

D REVIEW ITEMS

Write **dark** or **light** for item 6 and item 7.

During our winter, the North Pole is [6.] all the time and the South Pole is [7.] all the time. *light* *dark*

The following is another example: Items 11 and 12 each have 2 parts – a & b. In item 11, part a is correct if four bulbs are shaded. The student has to answer part a correctly **and** answer part b correctly to be counted as a correct item. Item 12 is a bit easier because part a has only one bulb shaded, but both part a and part b must be correct to be counted as a correct item.

11. Here's another problem. The light is off. The beam is broken 8 times.

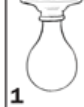

a. Shade the bulbs that are off.

1 	2 	3 	4 
5 	6 	7 	8 

b. Is the light **on** or **off** at the end? off

12. Here's another problem. The light is off. The beam is broken 3 times.

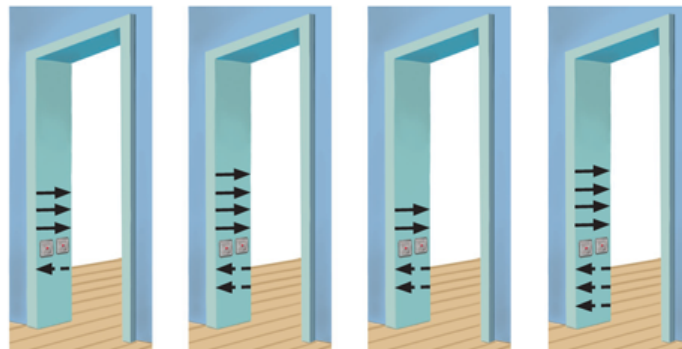

a. Shade the bulbs that are off.

1 	2 	3 
---	---	---

b. Is the light **on** or **off** at the end? on

Be careful to look for the numbered prompts. This example would count as four items because each illustration is numbered (11-14). Each prompt is counted as a separate item.

The solid arrows show people going into the room. The dotted arrows show people leaving the room. For each picture, circle the word that tells about the lights in the room.

11. on
off
12. on
off
13. on
off
14. on
off

Items completed during the lessons on the '10s' – 10, 20, 30, etc., ask for students to produce extended written answers. Use the Answer Key's example or directions from the lesson to determine what makes an accurate written. A prompt such as writing out the plot to a story or drawing a picture would be counted as only one item.

The item count for Lesson 122 includes prompts that would have been completed if you are doing the RMT Language component. If so, subtract the number of items completed as part of Language lesson from the Reading count.

Remember, keep a daily record of student performance on independent work. Mastery is 85% on independent work. Students need to fix-up all items that are incorrect on each lesson's independent work before the next lesson is taught. Take a corrective action when 25% or more of the group falls below 85% mastery, when individuals score below 85% for three consecutive lessons or when individuals frequently score below 85%.

If you have any questions, please email NIFDI at training@nifdi.org or call (877) 485-1973.
