

How to Administer the Test

1. Plan to administer the entry test individually to each child who has not had *Language for Learning*. Allow three to five minutes for each child you will test.
2. Make a copy of the score sheet on page 63 for each child.
3. Familiarize yourself with the instructions and the score sheet before testing.
4. Sit at the same side of a low table with the child, preferably in a quiet corner of the room.
5. Score the child's response on the score sheet as you present each test item. Circle 0 to indicate a *correct* response to a test item and 1 to indicate an *incorrect* response. Each error counts as 1 and the child's score is the total number of errors he or she makes.
6. Stop testing as soon as a child makes six errors and if possible, give the test for *Language for Learning*. If a child makes five or fewer errors, he or she can begin instruction in *Language for Thinking* at lesson 1.
